Hall of the Good Shepherd | Pastoral Centre Paul VI

The Theological Pastoral Symposium *Sanctified in Christ. Gift of God. Human response. Transformation of the world*, integrant part of the 5th preparative and celebrative cycle of the Centennial of the Apparitions of Fatima, proposed to the participants reflection three structural dimensions of the cristian sanctity: sanctity as a gift of God, that potentials paths of cristian fidelity and radicalness; sanctity as a human response, embodied in the search of intuit and receive the appeals of God; and the sanctity as a compromise of the transformation of the world, horizon of all cristian act open to God´s salvation plan for mankind. The theme´s approach from the message of Fatima converged to the deepening of the message as an appeal to the sanctity and as “a sanctity school”.
